## **PRESS RELEASE – CAZENOVE CAPITAL OFFERS OUTSOURCED INVESTMENT SOLUTION TO PROFESSIONAL FINANCIAL PLANNERS**

Cazenove Capital packages up its multi-manager diversity range and Discretionary Fund Management service to provide an outsourced investment solution to financial planners. The solution offers two routes to the expertise and experience of Cazenove Capital and the plethora of investment opportunities in the wider market.

Cazenove Capital's multi-manager diversity range and Discretionary Fund Management service offer advisers and their clients' easy access to Cazenove Capital's experience in multi-asset investing. The diversity range consists of three portfolios providing exposure to equities, fixed interest and alternatives to meet a range of risk appetites. The Discretionary Fund Management service offers a truly bespoke portfolio for individual clients.

**Robert Thorpe, Director of UK Advisory Sales, comments:** 'A rise in both market volatility and correlation of asset classes has lead more adviser firms to seek an outsourced solution to investment advice to allow them to focus on the increasing complexities of financial planning. While some investment companies are able to offer some assistance with this, there are a limited number of fund groups that can offer a solution catering for all categories for the end client, irrespective of their individual level of investment.'

'Cazenove Capital is recognised as a leader in both multi-manager and Discretionary Fund Management. By packaging these together as a complete solution, Cazenove Capital demonstrates that it is able to work closely with adviser firms to provide them and their clients with a comprehensive investment solution.'

**Nicolas Georgiadis, Director Private Clients, comments:** 'The past year proved the worth of our multi-asset expertise and active management capability, as our discretionary portfolios suffered to a far lesser degree than would have been the case under a more traditional equity biased approach. This initiative provides the opportunity for advisers to consider Cazenove Capital in a much broader context.'
